IT'S ALL ABOUT Quality

The National Healthcare Group Diagnostics is the first in Singapore to achieve Triple accreditation all at once

(ISO 9001:2000, OHSAS 18001: 1999, ISO 15189: 2003)

CHEST X-RAY? BLOOD TEST? URINE TEST? MAMMOGRAPHY?

These are just some of the comprehensive services that the National Healthcare Group Diagnostics (NHGD) provides for you. NHGD, a member of the National Healthcare Group (NHG), is a leading one-stop quality provider of X-ray, CT Scanning, ultrasound, laboratory, spirometry and mammography services in the community. It prides itself as a forerunner in bringing basic diagnostic services from the hospitals to a location that is near you, at cost effective prices.

NHGD is the first in Singapore to perform teleradiology on a large scale with multiple reading centres to benefit patients. X-rays taken digitally are transmitted to reading centres and the results ready within an hour. Patients at NHG Polyclinics and other NHGD centres now receive their X-ray results on the same day.

MAINTAINING STANDARDS

An ISO certification is a stamp of approval and with this endorsement, NHGD will continue to provide accurate, timely and cost effective diagnostic services to the community.

Quality processes and management systems at NHGD are put in place to meet recognised international standards. This is further boosted by a culture of good workplace practices, where professional staff are given continuing education to ensure technical competency as well as to keep abreast of the latest technology and innovations. At the same time, NHGD are also committed to ensure a safe work environment for staff and patients.

HOW PATIENTS BENEFIT

All employees at NHGD have a common goal and culture towards ensuring quality care and patient satisfaction. With this triple accreditation, this level of commitment is further emphasized and strengthened. Patients can expect consistent quality service delivery from any NHGD location.
